RECOMMENDED INDUSTRIES & USE

- Automotive & Parts Manufacturer
- Building & Construction
- Logistics
- Maintenance services
- Transportation
- High Tech

PACKAGING

10 Pairs per Carton

FEATURES

- It's designed to absorb up to 15KN of static pressure and withstand impacts of 200J
- Anti-puncture flexible Kevlar midsole can prevent your feet from being harmed by sharp objects like nails, steel bars or other construction waste.
- The Breathable Mesh uppers provide great air permeability performance.
- Light and comfortable enough for long periods of standing or walking.
- With anti-slip textures on the wear-resistant rubber outsole can greatly enhance the safety. Suitable for kitchen, warehouses, construction, agriculture, farm, gardening, hiking, etc.
- Perfect for drivers, warehouse personnel, logistics, auto mechanics, construction industry, machinery, carpenters, gardening, etc.
- High-quality memory foam insole that supports the arch and adapts to your foot's shape for all-day comfort.
